Mana Sorcerer

Finally
....!?

Mess

!?

Doctor

Is he
alright?

Yeah

He's
simply
starving.

I'm
sorry
for the
trouble.

Don't
be.

It's
just a
humble
meal.

Never-
theless...
that
explains
a lot.

Thank you
so much! I
haven't eaten
anything
since morning.

Then, it's
too
hard to
ask on
a crappy
road when
you're
starving.

Are
you a
traveler?

Invest-
igator?

Ah,
sorry for the
late intro-
duction.

I'm called
Rouen,
a Mana
investigator.

Inves-
tigating
various
places
with
mana.

Doctor, are you here?

To prevent Bartók's destruction

Oh no.

I have work to do throughout this afternoon.

Ah

the organization of Mana investigators is established.

I also have my mission.

Then please excuse me...

I'm sorry for the rush.

The one who mixed was saying on the screen.

I'm glad to meet you.

You. It's the first time I met one.

You're
Yuuki-san,
the new
butler,
right?

I'm
Cresson.

I am the
doctor
here.

Do come
to visit if
something
happens.

Nn?

Hey,
Mini!

Oh?

I'm still
allowed to
go out
around
this time,
aren't I?

I...

Doc...

I will
guide
Mr. Rouen
around
the town.

Too lively!
It's
worrisome.

She
looks
lively
today.

"I'm the doctor around here for a long time, but I'm fine. One time someone's dying in the street, he die!

...you are... a big gig.

The doctor wouldn't do this, and...

Yeah. He loves to sing.

He must be a good doctor.

Eck, Doctor Crossan is loved by towns people.

Yes!

We sell a remain-dan.

To which part of the town should I guide you?

Let's go then.

And so...

This is the biggest tree in this town!

Wow...

What a fine tree!

How are you going to examine such tree?

Among beasts

There are the benign ones and the malignant ones...

Mana resides in big trees.

They will tell us if there are beasts whose spread reaches!

Well...

Beast?

Hk...

For example,

this one.

?

Ordinary greenness start grow in the wild are benign.

You are unfamiliar with Mana Sorcerer's ability, aren't you?

Amazing! It's like a magic!

Mana Sorcerer?

They can restore withered greeneries and make flowers blossom from seeds like what I just rose.

They're capable of pulling out the special power which lies dormant within plants.

Fearing the power of Mana.

Such ability is common among the Investigators.

Oh, well, you'll pretty much understand sooner or later.

That's what a Mana Sorcerer is.

They kill the surrounding grass and roots.

The thing about the malignant seeds is

...and serve as the cause of the destruction.

The Mana is stable here.

To remove and purify them are also our duty, too...

The soil is good.

Umm?

Ah...

Is there really a library in here?

Any idea?

Well, should I point out...

I don't understand...

There's always been a bookshelf.

Are you okay?

Yes.

Just my usual anemia...

I'll be okay soon. Don't worry.

As my race, let's go back to the clinic.

Yes

I'm sorry that you had to escort her back here.

It's okay.

This girl...

is she suffering from a severe illness?

Yes

I want to help her recover with my ability.

But if it's just like her.

I know some people who died from this very disease.

Both of her parents have already passed away.

And she has no relatives, so I decided to look after her.

But it appears that she has already fallen ill at that time.

P-P-P-P-
PLEASE
DON'T
MIND
ME!!

*jelll dork help us*

A moment, please.

Uhm... if I recall correctly, I still have a tuna sandwich.

You have a big appetite despite your slender figure.

Just be careful not to collapse again, okay.

Well well.

I'm indebted to you yet again.

Thanks.

Sure.

Please give my regards to Mint.

Well then.

Sure.

If you're looking for Rouen he has already return to his job.

Doc.

Nii?

Doctor.

I see.

Good for you.

He made a flower blossomed before my own eyes.

He said he's a Mana Sorcerer.

Here. Take your medicine and rest for a while.

Okay.

This is a peaceful town after all.

Who knows?

Yes!?

Malligancy? No. I don't know.

I've been asking all of the people but there's ... I feel no clue at all.

Well, I don't think I'll find it easily from the start.

Let's return to the place where we last met before.

Once again.

This place, she was very busy before.

I hope she'll be well soon.

Oh. Creeson has gotten down so I could relax again.

The sun is setting—

The Mana is receding!?

This is...

If it enters someone's body, it will grow by using the blood as the source of moisture.

Some shady guild has been collecting them...

Before long, a flower will pierce through the body and a beautiful jewel-like seed will appear.

However, this isn't something that an amateur could handle!

I hear that there are people who're willing to buy that seed at a high price...

"So you can heal yourself, huh?"

You, do you understand what you have done to Mint?!

"It seems I have done an unnecessary thing."

Using a patient that won't live long,

I can't believe such words come from a doctor...

what's wrong with this!?

WHAT?

I might have lost you.

ABOUT THE CULPRIT.

He seemed to be a nice person though.

I turned him to the police afterwards, so, relax.

So...

Yep?

How's the child?

Well...

I'm sending you the written report now.

I think it'll reach you within a week.

YES, PLEASE DO SO.

"Will you take me as your wife in the future?" she said.

I made sure she got a proper medical care.

It seems she moved to the east.

She's doing very well now.
